The feeling was also general that it was needless to keep up the fight as it had been conducted during the last two weeks. It was then decided to allow the legislature to come back on Monday, to discontinue the sessions at London, and allow matters to be settled by the lerol trib mals. There is no doubt what the decision of the courts and legislature will be, as both of them have already gone on record as favoring the Genel side of the controversy.

The following resolution was passed by the meeting:

"Resolved. That it is the sense of this meeting that Gov. Taylor should not sign the agreement referred him by the Louisville conference, and that reposing confidence in his ability and sense of duty, we are content to follow his leadership after that refusal."

Gov. Taylor had left the hall and was adopted with ringing cheers. A small d tachment of troops will be left Fround the capitol building to preserve

Leaders Disband His Army, Which is Wandering in the Hills.

Rebels in Albay, Province of Luzon, Have Adopted Harassing Tactics Against Towns Which Americans Have Garrisoned.

Manila, Feb. 12.-11 a. m.-A number of ex-insurgent officials arrived here yesterday. They state that Gen. Pio Del Pilar, the insurgent leader, died of fever a fortnight ago in the Morong mountains.

The leaders, after his death, held a meeting, and, seeing it would be futile to offer further resistance to the Americans, they therefore disbanded their forces, which are now wanderng in small gangs in the hills.

Manila, Feb. 12.-Guerrilla warfare continues south of Manila. Two attempts have been made to ambush the Americans. Col. Schwan, while returning to Manila with his staff and an escort of 100 eavalry from Batangas, was attacked by the insurgents. The latter were dispersed, but the Americans had five men wounded.

Lieut. Col. Beacom, with six companies of the 42d infantry, had a two hours' fight with Gen. Pio del Pilar's command, which attempted to ambush the Americans along the trail through Morong province, near the lake. Here also the insurgents were dispersed, but the Americans had several wounded, among them a captain.

Gen. Bell is operating southward through Zambales province with a small force. He will soon take two regiments and a battery through the provinces of North Camarines and South Camarines, going there on transports. Many insurgents retreated to that part of the island from Cavite and Batangas provinces.

Another expedition will soon start to garrison towns along the north coast of the island of Mindanao.

It is reported that the insurgent Gen. Alejandro has recovered from his wound and has assembled a large force in that district.

Of late the insurgents in Albay, Province of Luzon, have adopted harrassing tactics against the towns which the Americans have garrisoned. They camp in the hills and maintain a constant fire upon the American outposts. When the troops sally against them, they scatter, returning when the Americans retire. They shoot burning arrows, and have thus burned a large part of the town of Albay. Indeed, most of the larger towns in that province are practically deserted, except by the garrisons. Scareely any of the inhabitants return to their homes. They are camping in the interior, and it is supposed armed insurgents prevent them going back. It is reported that there is much suffering among them owing to lack of food. As a result of these conditions, the hemp business in that section is seriously hindered and ships going for cargoes are compelled to take gangs of Coolies to do their loading. Hemp eld in the interior is quite inaccessi-

The plauge continues. Eight cases were reported last week among the natives and Chinese. There is no excitement, however, and business and social life are undisturbed. Smallpox. however, is prevalent among the natives along the railroad, and in the towns on the northern coast. Two officers of the 36th infantry have died of the disease and another officer and several soldiers have been stricken.

Four Men Fataily Wounded.

Caney, Kas., Feb. 12.-Four men were perhaps fatally wounded at a dance five miles from Caney in Oklahoma territory. "Bob" and Carl Thomson attacked Joseph and James Miekles and Frank Wise with knives inflieting ugly wounds. Len Cushman interfered and Bob Thomson felled him with a blow on the head from his revolver. All four are in a critical condition. A posse is pursuing the Thomsons.

Oldest Newspaper Man Dead. Anaconda, Mont., Feb. 10.-Beriah

Brown, probably the oldest newspaper man in the west, died here, aged \$4 years. Mr. Brown was born in New York state. He was an intimate friend of Horace Greeley. For half a century he was engaged in newspaper work on the Pacific coast. He was the founder of the Democratic Press of San Francisco, which afterwards became the Examiner.

The Number Has Increased From 200 to 2,500 Within the Last Six Weeks-Attendance 100,000.

Havana, Feb. 11.-Alexis Frye, superintendent of Cuban schools, in his report to the governor general upon the development of the school system sinee the work of reorganization began six weeks ago, says that the whole country seems on fire with enthusiasm for an education. The publie feeling exeeeds all he had ventured to hope for. Six weeks ago there existed in the island less than 200 sehools, all based on the old Spanish foundations, with the exception of a few that had been established more than a year before in Santiago by Gen. Wood. There are now 2,058 schools in the island, of which 201 are in Havana city, 152 in Matanzas eity. and 170 in Porto Principe city.

Thus far reports have been received from 97 municipalities, and there are 34 others to be heard from, which will probably increase the number of schools by 400. The schools that have already reported show an aggregate attendance of more than 100,000 pupils, and Dr. Frye believes that this attendance will be increased to 150,000 before June 1.

SYMPATHIZE WITH THE BOERS.

A Resolution to That Effect Passes the Senate-The Vote Will Be Reconsidered.

Washington, Feb. 11.-At the opening of the senate Saturday Mr. Allen presented the following:

"That the United States of America extends its sympathy to the people of the South African republic in their heroic struggle for liberty and popular government, and believes it to be the duty of the government of the United States to offer mediation to the end that further bloodshed may be averted and an honorable peace may be eoncluded between the belligerent governments."

No objection was made to the consideration of the resolution, only about a dozen senators being present. Before anybody realized what was going on, the resolution was put to a vote and deelared adopted.

Mr. Pettus (Ala.), addressing the ehair, demanded the yeas and nays. To this Mr. Allen objected, as the resolution had been alopted.

The chair agreed to this point, but asked Mr. Allen that he permit the vote to be reconsidered and let the resolution go over. To this Mr. Allen

To Centralize Their Plants

Pittsburgh, Feb. 11.-Negotiations are in progress for the purchase of 100 acres of land on the Ohio river, a mile below Steubenville, O., by the American Ax and Tool Co., the purpose being to centralize the many widely seattered plants of the eonzern at that point. The largest plants of the company are at Beaver Falls, Pa.; Milvale, Pa.; Albany, N. Y .: Portland, Me., and East Doug- are blowing up the permanent way Mass. Charred Remains Found.

Eseanaba, Mich., Feb. 11.-The eharred remains of what are supposed to have been the bodies of nine of the vietims of the Chicago & Northwestern wreck, which occurred at Ford river switch, have been brought 'o this city and placed in the morgue. All but two of them were positively identified by the coroner's jury. These, with the body of Sam O. Green, of Negaunee, which was the first to be recovered, make a total of ten lives lost in the wreck.

Too Many Convicets.

Wheeling, W. Va., Feb. 11.-Warden S. A. Hawk, of the state penitentiary. is in a quandary as what to do with his prisoners. The prison will only accommodate 700, there are within its walls 689, and nine were received from Putnam county Friday. In addition to these there will be 29 government prisoners sent to the institution from Washington, D. C., whose sentences range from 20 to 37 years.

Barrow Not Insane.

New York, Feb. 11.-Warden Johnson, of Sing Sing, said Saturday that George B. Barrow, who last June was senteneed to fourteen years and ten months in state prison for participating in the kidnaping of Marion Clarke, is not insane as has been reported. Barrow, who has been ill, was much better Saturday, and will not be removed to an asylum.

His Skin Turning White.

St. Louis, Feb. 11.-James Tyler, a Negro in the St. Louis jail, is gradually turning white. The discovery was made by Dr. Kearney, who vaeeinated the prisoners. He says that Tyler is afflieted with a peeuliar and rare disease, and that in four years his skin will turn from its present coal black color to white. The change is attributed to microbes feeding on the pigment of the skin.

Successful in Several Encounters With the British Forces.

The Boers Have Secured an Important Position South of the Tugela -The Theory of an Einborate Feint Has Been Expioded.

Rensburg, Feb. 10.-The Boers outflanked the British here yesterday. A considerable force of the enemy was threatening the British communications between Rensburg and Slingersfontein, 12 miles away, and during a reconnoissance by some Inniskillings and 20 Australians from Slingersfontein the Boers were discovered attempting to get a gun in position to shell the Sritish camp.

The Australians, having come into ery elosé contact with the enemy, took cover under a hill about 9.000 yards from the eamp. Thereupon the Boers took up a position with a view of preventing their retirement. Some ourghers got within 200 yards of the Australians and ealled upon them to surrender. They replied by fixing bayonets and shouting defiance.

Sergt. Edwards and two men made a dash, galloping under a hot fire, bassed a number of hills held by the Beers, took word that the Australians were safe and confident of holding the enemy at bay and of getting out after dark, which eventually they

The Inniskillings prevented the eneny getting their guns in position. The Australians lost one man killed and

three wounded. The convoys have been successfully gotten to Slingersfontein, the British scorts having several brushes with parties of from 20 to 30 Boers infesting the region. Lieut. Col. Page, with section of artillery and 150 horses, got one large convoy through by shelling the enemy out of the road.

The Boers also outflanked us on the west, placed a gun in position at Bastards Nek and fired on one of our outposts, driving off 1,000 sheep. In Wednesday's brush two corre-

spondents, Mr. Hales, of the London Daily News, and Mr. Lambie, of the Melbourne Age, fell behind. Mr. Hales, who was slightly wounded, was captured by the Boers, and Mr. Lambie was killed. The British took two prisoners.

Out of a patrol from the Jufontein, under Capt. Hamilton, composed of ight Tasmanians and eight of Gen. French's seouts, only two Tasmanians and two seouts returned. The others were captured by the Boers. To-day the Boers shelled the British

camp, but with little effect. Modder River, Feb. 10.-Apparently the Boers have brought all their big guns from Mafeking to shell Kim-

London, Feb. 12.-The Pietermaritzburg correspondent of the Daily Mail, telegraphing Sunday, says:

"The Boers have occupied Bloy's farm, south of the Tugela, which is under an hour's ride from Chievely and have turned the homestead into a hospital.

"On the farm are hills commanding both bridges over the Tugela, as well as Forts Wylie and Molyneux, and from which a view of Bulwana and Ladysmith is obtainable.

"There is much apprehension here regarding the Boer movements, and the authorities are on the alert." The latest dispatches from the front

showing the real reasons for Gen. Buller's retirement, and his intention to try again, quite destroy the comforting and ingenious theory that the movement was an elaborate feint to facilitate the main advance of Lord Roberts, a theory which obtained acceptance largely because of Mr. Balfour's misleading statement to parliament. These seemingly useless retcences and prevarications on the part of the government and the war office are beginning to be criticised severely.

Durban, Feb. 12.—It is rumored here that Gen. Joubert is marehing with a column of 6,000 men to outfank Gen. Buller.

Frere Camp, Feb. 12.-All is quiet here. The British troops are resting and the Boers are inactive.

By this she had drawn to within a couple of miles of us and was still coming Under our stern there was barely a wake (so slowly we moved), the froth from our bends and rudder having given place to an oily flatness filled with tiny eddies, through which the boat we still towed slowly dragged its way. Now there was a yellow baze on all the horizon, that told of the waning day, but the sun's broad light still lay over the ocean, and it would be hours ere darkness could furnish us shelter. By then our fate would be known.

CHAPTER XIX.

THE CAPTURE OF THE SCHOONER.

I wondered mightily that they had not ired at us, but the solution of the riddle came to me when I remembered that the Sprite had but one powerful gun forward, and hitherto she had not been in a position to use it on us without blowing away her cwn forward rigging. Her silence thus confirmed my fears as to the identity of the vessei, nor were we long in doubt as to the malevolence of her purpose. Still she glided toward us, wait I as is a father over a mooth pond, while we rolled to the long reach of the surges without more way than would take us a fathom in a minute.

For all the deadness of the Phantom, I still stuck to the wheel, that she might not annd into the wind. Ames and his sister had gone below to reload the firearms and by our ammunition, when, just as the last sp of wind went out and the shivering -.i's set the recting points beating the canvas with a musical ripple, the enemy slewed a couple of points to the south, and a bal. whate smoke broke from her bow. Plainas day I marked the shot as it struck the water and in great leaps came skipping toward us. It passed us well astern, for, with the fall of the wind, we had swung into the trough of the sea, and the Phantom was ow parallel to her pusurer, the latter lying o'i our starboard quarter.

There she might remain, and, using us as target, sink us at her leisure, though I had ittle fear of this action on her part, as the British policy was ever to capture anything that could be of use, only destroying

I watched the slight of the ball until the spouts sent aloft as it struck the sea became staller and the missile sunk in the distance. It was a command to come into the wind and show our colors, and laping (though without reason) to defer to the last the fall the bolt. I descended into the cabin and fumbled through the flag locker for the York. I harlly know why I think when the girl looked up from her work and

mickly asked: 'Are you to make a last stand under that? Nay, then, Donald," she said, with an appeal in her voice, and for the first time giving me my first name alone, "unlessed unlose to blind them for good and all by of harden the like of which I had the sight of that bunting, 'twere a week t the D ve when he was posing as | tong to do. Without a word I turned and bounded up the companion, and in a moment the stars and stripes were hanging at the main peak, barely unfolded by the zephyr that was still playing alott.

This shot to'd as well as the delay, and by the time they were again well under way both rifles had been reloaded, and as yet there had been no call for the services of Miss King.

"Let them come nearer," said I, "and then give them both barrels at once, and after that the pistols." There was a grim determination in the way their oars flashed now, and as they eame to within 200 feet we both, by this time under the shelter of

the rail, fired on the count of three.

Through the smoke that drifted on us I rowing cease, then there came a yell from the boat, and two muskets were discharged at us, but without effect. What fools they were to delay, for I had reloaded before the first motion had been made to continue the eourse! But to my amazement it was for only a moment they held on their way. As I fired again, apparently without hitting, I saw the boat's head slew about, and then they quickly hauled off and started to return to the distant schooner.

It was so far a triumph. Out of ten men we had disabled and perhaps killed three at least, one being an officer. Why they had fled still numbering enough to have vanquished us could only be accounted for by ti e supposition that they knew naught of our weakness, and feared the plain showing of our colors was but a sign of strength and fearlessness, if not a lure beckoning them to ruin. I had not dreamed of such an easy conquest, and for the while it was all I could do to restrain the extravagance of my feelings. I turned to Miss King. Her pallor hal given way and lett two bright spots of excitement which glowed on her cheeks and matched well the brilliant sparkle of her eye. Ishe was trembling with appressed emotion, and as I held out my hand to her in unspoken congratulation, she took it, and, lifting to her lips my grimy fingers, rose without a word and hurried terward.

The impulsive spirit of her brother showed itself in the ery he gave as, with half a sob and half a laugh, he danced about the deck and then threw himself into my arms, breaking therefrom, shaking his fist at the retreating boat, and in mighty un-Quaker mood, though in Quaker style, damned the Critish high and low, affoat and ashore.

'A curse on thee, thee white-livered. scarlet-backed cowards!" he shouted at the ed. "To let two men and a girl drive thee! Oh, by the Lord God above me, the battle is not with the strong! Donald! Donald! mark thee well! I tell thee we will yet best Thy hand and head have so far shown the safety. Thee will yet prevail!'

The lump that had risen to my throat when I saw that the enemy was we ended matters on the instant. As it beaten off still held me spechless, but it passed pres ntly, as did also the wildness of the youth, and cre long we were speculat ing as to the next probable move of the discom'ted rejects. It was true that I had realized the first part of my secret hope of vercoming the boat, but, on scanning the horizon, there was no sign of a rescuing wind, though I thought the south held some promise of a later be eze. There was naught to do but stand at bay and await the i-sue.

Ner did we await it for long. The sun was sliding rapidly to the edge of the sea, being but an hour high, its path lying in a line with the now the roughly becalmed schooner off our quart r; its glare throwing a dazzing pathway betwirt the two vessels. It is more than likely they scented the ad vantage given them by their present post tion, for not long after the return of the hest expedition against us I saw three boats leave the r side and proceed along the trac' or blinding glitter

eyesight is failing and should bave immediate attention: Imperial spectacles and eyeglasses have perfect lenses, always perfectly centred and made of purest material, set in frames of the highest elasticity and consequently of greatest durability, united with the utmost lightness and elegance. When both frames and lease are scientifically fitted by Dr. C. H. Bowen's system they always give satisfaction for they are perfect. Never buy cheap spectacles, nor of men who do not know how to fit them. You will get poorly adjusted spectacles, or poor, imperfect leuses, and are better off without any glasses than with either of these defects. Buy imperial spectacles of a reliable, skill for dealer, and they will last longer without change and be cheapest in the end.

We have engaged the services of Dr. C. H. Bowen who will visit our store on the second and last Thursdays of each month and invite all to call and have their eyes examined, for which there is no

the long village street. Had she been | tion: given to such vulgar boasting she could have told her friends that she had had "plenty of chances." Indeed, it would have taken all of the fingers and even the thumb of her plump right hand for Hetty Dryden to have "counted up" the offers she had had right there in Hebron during the past 20 years. More than one elderly widower had gone disconsolately from her gate

during even the last five years, chagrined and rebellious because Miss Het-And h. f course, wis "Dolly." grined and rebellious because Miss Hetty firmly, but kindly, declined to change her name. The last rejected suitor had been Hiram Dyer, a widower of but eight months and the possessor of eight "aw-

ful" children who had undoubtedly been largely instrumental in worrying and wearying their poor mother into her grave.

"Mebbe this is from Hiram Dyer." Hetty Dryden said, as she snipped off the end of the envelope containing the valentine. "He said I'd hear from him again. If I felt sure it came from him, I'd send it back. I don't want him nor his valentine, either."

The valentine that Miss Hetty drew from the envelope was not made of paper lace and tinsel and embossed doves and flowers. It was instead a squarly-folded sheet of blue lined note mother," and because he very well paper, on which was written in an evi- knew that no woman could live hapdently disguised hand:

But let a light shine For your valentine." The flush in Hetty Dryden's cheeks deepened as she let the bit of paper fall to her lap.

written. "Yes, sir; Jared Lawson," she said. "you wrote them both. The capital letters are just alike in both of them, although you have tried to disguise your writing in your precious jingling poetry. I've found you out, you great goose, you!"

But there was a smile on her face and a kindly light in her eyes as she spoke the unflattering words.

Jared Lawson was proprietor of the only news or periodical stand in the town. He was a short, slightly portly man, rather bald, with a smooth, plump and kindly face. His blue eyes betokened honesty and sincerity, and he had almost womanly gentleness of spirit and manner. His 45 years had been full of deeds of kindness and the old ladies of Mebron were never tired of telling of how "awfully good" he had always been to his mother, who had been a "eeble, fretful, exacting and complaining old body for years before her death.

It was held to be true that Jared had not married because he "couldn't leave pily with her.

The old lady had now been dead six months and Jared was living alone in the four rooms his mother and he had for years occupied above his store. It was a lonely and unsatisfactory life for a man of Jared's home-loving and strongly domestic instincts to lead.

"Poor Jared!" said Miss Hetty, as she read the jingling rhyme for the fourth time. "He must be dreadful lonesome since his mother died. He's a good man, Jared is. Any man who will be as good as he was to that fretful. trying old mother of his for 25 years is a mighty good man. I was there a lot during the old lady's last illness and it was wonderful how gentle and patient he was. And so he wants me for would be more comfortable here than in those four little rooms he's beer batching in over his store. And Iwell. I'll own up that I feel kind o' lonely myself sometimes, and I-Ialways liked Jared."

She sat for a long time with her hands crossed in her lap and a sweetly serious, almost wistful expression or

At five minutes before eight a short, rather stout man was standing at Miss Hetty's gate looking toward the window in her east room. There was no light in the window.

"I'm an old fool to think a woman like her would set a light in her window for any man, as a hint for him to come in and propose to her." said the man to himself. "I wish I'd signed my name to my fool rhyme, or that I did the courage to go in. If there is no light in that window by eight o'c'ock that valentine. A man that hasn't the yer!"

A bright ray of light came streaming across the snow from the window of the east room. Jared Lawson tugged at the gate, which did not open readily, and finally he climbed over the low fence and ran toward the door calling out like a happy child.

"Hetty! Hetty! O, Hetty!" The door opened before he reached it and Hetty stood there in the light in a cherry colored gown and snowy white apron, a smile on her face and her eyes shining.

Jared's voice trembled and there was a suggestion of fear in it as he said: "O, Hetty, it is I-Jared Lawson." "I know it, Jared," said Hetty, laugh-

"And you put that light in the window for me, Hetty?"

"For you, Jared." "O, Hetty! God bless you, my-my -dear!"

He reached out his hand to clasp her own and to hold it to his lips. Then they went into the house together with the light of new-born love radiating from their hearts and faces .- Morris Wade, in Detroit Free Press.

Cleanliness in the Dairy.

Cleanliness counts in no place for more than in the dairy. The milking should be done in a clean place; all vessels used should be washed morning and night in hot water

with Ivory Soap, rinsed and well aired. Milk should never be kept in a cellar with veg-

etables, as an unpleasant taste will be imparted. Attention to these details will insure a supply of wholesome milk and butter. ELIZA R. PARKER.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases of of ten are caused by catarrh, which is nothing but an inflamed condition

PECULIARITIES OF STATES.

Some of the Physical Features for Which Certain Commonwealths Are Noted.

"Has it ever occurred to you," said the committeeman from Poweshiek, 'that Iowa is the best watered state in the union and has less sterile land than any other?" No. it has not. Never thought of it. In fact, we don't know much about Iowa over here in the cast. She gave us some clever men in Allison, Frank Hatton, postmaster general; George W. McCreary, secretary of war; James Harlan, secretary of the interior; George W. McCrary, secretary of war; Senator Gear and Gov. Kirkwood. Jeff Davis, a lieutenant in the United States army, thrashed a lot of white folk in Dubuque, and the Mormons settled at Council Bluffs. Another thing-Iowa passed a law prohibiting liquor dealers from making more than 33 per cent. profit on sales. What else is she famed for?

The Poweshieker's remark led to study of the physical peculiarities of several states. In proportion to size, Georgia has a great many more counties than any other state, the present number being 137, with promise of a new one to be named after Lieut. Brumby. Texas, with nearly four and a half times the area of the "cracker" social status is more in keeping with state, has 244. Georgia has no lake, and her rivers and creeks are not above the average. Massachusetts has 208 pounds, 122 rivers and more coves and harbors than any other state. She has more islands than any other state except Florida. Hard to believe. isn't it?

The average reader will be amazed to learn that little New Hampshire, with less than 10.000 square miles, has no less than 406 lakes and ponds, 154 brooks 59 rivers and 294 mountains. This makes Iowa look small. Colorado, a big state, has 566 creeks. Texas has comparatively few rivers, lakes and creeks. Alabama has 663 creeks and 87 rivers. Iowa cannot approach that record.

Minnesota has 222 lakes and 140 rivers. Pennsylvania, one of the biggest, richest states, has altogether only 16 rivers and not a creek. Kentucky, also a big state, has no creeks and only 23 rivers. Tennessee has 31 rivers and creeks all told. Indiana has 8 creeks, 2 lakes and 15 rivers. New York, a state of modest size, is well equipped with rivers, lakes, creeks, islands and mountains. Louisiana is nearly all rivers and bayous, and Florida is largely made up of creeks, islands, lakes and rivers .- N. Y. Press.

Sugar-Cane Paper.

A mill is being built just south of New Orleans to convert into paper the stalks of sugar cane after the sugar has been extracted. There are from three to five million tons of bagasse, as the exhausted cane is called, turned out of the mills every year, and how to utilize it has been a problem to Louisiana planters for generations. In some mills it is used for fuel, but this has not been considered a profitable solution of the difficulty. Although several years ago the suggestion was made that bagasse would make as good a material for the manufacture of paper as wood pulp, nothing practical was done until Gov. Warmoth recently started a paper mill as an annex to his sugar factory. A diffusion plant is used in these factories, and the cane is turned out in dry chips, which are in much better condition for paper manufacture than the soft crushed cane as it comes from the ordinary sugar factories. The success of Gov. Warmoth's venture will mean a new and profitable industry in the sugar-cane districts of the south .- N. Y. Ledger Monthly.

Wanted-A Corkscrew.

The wine at the communion was put on the table in a black bottle, and on one occasion the cork had not been drawn. Mr. Bell, the vicar, turned to the intending communicants as they knelt at the rails, and asked: 'Has any lady or gentleman a corkscrew?" The implement having been obtained (I fancy from the public house opposite, where stimulants were occasionall; procured for the aged curate during the sermon), the serve iccs concluded .- "Memories," by C. Kegan Paul.

Hands

One Night Treatment

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful, and points to a speedy cure of the most distressing cases when physicians and all else fail.

Sore Hands 8 Years Cured

Puffed Up Like a Toad. Water Ran Through Bandages to Floor. Had to Walk the Floor Until Would Fall Asleep. Fingers Would Peel Like an Onion. Doctors Could Not Cure.

Eight years ago I got sore hands, commencing with a burning sensation on my fingers and on top of the hand. When I rubbed them, you could see little white pimples. I felt like twisting my fingers out of their sockets. I had high fever, and cold chills ran over me, and so I kept it going until I was tired out. Nights, I had to walk the floor until I fell asleep. My hands neeled like an onion the finger pails got loose and the water hands peeled like an onion, the finger nails got loose, and the water ran out, and wherever there was a little pimple there the burning fire was ran out, and wherever there was a little pimple there the burning fire was—that happened at least ten times. I am running a blacksmith shop, horse-shoeing, and I would not shut up the shop for anybody, but it was hard. My hands puffed up worse than a toad. When I drove horse nails, the water from my hand: ran through the bandage, on to the floor. My customers refused to look at my hand. I had a friend take me to the doctor; he gave a solution of something to bathe my hands. I went to another doctor, I think, for a year. I found your advertisement in a Utica newspaper, and I got the Cuticura remedies. As soon as I used them I began to gain, and after using a small quantity of them I was entirely cured. I would not take fifty dollars for a cake of Cuticura. would not take fifty dollars for a cake of CUTICURA SOAP if I could not get any more. I would not suffer any more as I did, for the whole country. Feb. 22, 1898. CASPER DIETSCHLER, Pembroke, Genesee Co., N. Y.
